

DISHA HIMMAT PUROHIT

MSc AI & DATA SCIENCE | DATA ANALYTICS | AI / MACHINE LEARNING

Talegaon Dabhade / Maval, Pune, Maharashtra, India

[Phone Number] | [Email Address] | [LinkedIn] | [GitHub/Portfolio]

PROFESSIONAL SUMMARY

MSc AI & Data Science student with a BCA background and hands-on experience in Python, data analytics, SQL, machine learning, web technologies, and AI-based application development. Interested in applying data-driven problem solving to practical projects and building reliable, user-focused technology solutions.

TECHNICAL SKILLS

Programming	Python, Java, C, C++
Data & Analytics	Pandas, NumPy, SQL, MySQL, Data Analytics, Data Visualization
AI / ML	Machine Learning, Artificial Intelligence, Scikit-learn
Web	HTML, CSS, JavaScript
Tools / BI	Power BI
Professional	Communication, Team Leadership, Adaptability, Problem Solving, Client Communication

EDUCATION

MSc AI & Data Science — Indira University, Pune, Maharashtra | Currently Pursuing

Bachelor of Computer Applications (BCA) — Pimpri Chinchwad University, Maharashtra | Completed

PROJECTS & RESEARCH

Machine Learning-Based Prediction of Electric Vehicle Charging Demand | *Research Project*

Developed an ML-based approach for predicting EV charging demand using historical charging data, time, location, weather, electricity price, occupancy, and lag features. Compared Linear Regression, Random Forest, and Gradient Boosting models.

Smart AI Assistant | *AI / Full-Stack Project*

Built a smart assistant concept with FastAPI backend, SQLite database, JWT authentication, chat history, voice interaction, games, media search, image upload, and a responsive AI-style web interface.

Grocery Store Management System | *Java & MySQL*

Developed a management application for grocery-store operations using Java and MySQL, focusing on structured data storage and basic management workflows.

CERTIFICATIONS

- Google UX Design — Coursera
- Using MySQL Database in PHP
- Learn Object Oriented Programming in PHP

ADDITIONAL ACADEMIC WORK

- Data analytics and Python coursework/projects
- Ashtapada / Ancient Games research and presentation work
